Last updated: 30.06.2026

As YSF SOFT, the privacy of our users and ensuring that their personal information does not reach third-party individuals is of great importance to us. This privacy policy explains what information is collected while using our website, applications, and games, and what it is used for.

1. Collected Information and Purpose of Collection

Our website, applications, and games have been developed generally to request minimal information from users. However, we collect certain information to ensure some of our services work correctly or better:

- Technical and Usage Data: In order to perform in-app performance analyses, crash reports (Crashlytics, etc.), and to improve the user experience, device model, operating system version, and anonymous usage statistics may be collected.
- Information Provided by the User: We store information provided by the user, such as contact form details consisting of information entered by our users themselves, in order to respond, provide support later, and improve our services

2. Third-Party Service Providers

We utilize reliable third-party services to deliver our services in the best possible way and to display advertisements to users:

- Firebase / Google Analytics
- Google AdMob
- Google Play Services

3. Cookies

We may use cookies on our website with the purpose of maximizing the satisfaction of our visitors.

4. Security of Users' Information

We do not share the information we collect with any third party unless requested by official authorities. Furthermore, we take measures to the best of our ability to prevent the information we store on the internet from being seized through unofficial ways by third-party individuals.

5. Children's Privacy

Our services do not appeal to children under the age of 13. Parents are fully responsible for children under the age of 13 using our services. If any issues are experienced regarding this matter, parents can contact us.

6. Contact

If you have any questions regarding this privacy policy, any ideas you wish to share with us, or a data deletion request, you can contact us via the support@ysfsoft.com e-mail address.
